

Submitter: Kasey Holwerda
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3414

Historic resources must be protected or we lose our sense of place that makes Oregon special. Please do not allow this to happen. We cannot allow our state to become an architectural wasteland where there is no continuity of history or shared memories between generations of Oregonians. We do not want to become another place like the metro area of Atlanta, Georgia. Save our historic places for future generations.
