

Submitter: Denise Bertetto
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3414

The draft amendments to be considered June 1, 2023 do not include any substantive considerations for historic resources, either individually listed or in a district, even though they do include exceptions for statewide goal-related natural resources, Willamette River Greenway, and coastal zone protections. I oppose the loss of protections assured by local governments through Statewide Land Use Goal 5. The integrity of historic landmarks and districts are critical to me and to my community! HB 3414 jeopardizes historic protections and design regulations statewide. It undermines the long-adopted local review process. Please exclude historic resource protections from the scope of HB 3414.
