

Submitter: Heather King

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

As stated in previous testimony - undoing the kicker law (that has been in place for 44 years) with no plan or foresight about what will be done with the funds and to be done almost silently is irresponsible. This is a part of our right at residents of this state and a part of our state constitution. I strongly oppose the amendment of our constitution and any law that would undo this right.
