OPPOSE SB 744

As a taxpayer, it is fully unacceptable that legislators would have the mere audacity to suggest discontinuing the practice of returning surplus revenue refunds to the people.

Any suggestion of keeping OUR money is completely unreasonable, the surplus to my knowledge draws/collects interest which in essence is free profit from the peoples money that the State keep's. Any amount (even under 1\$) of a surplus or interest the state keeps/collects from the peoples taxes is unacceptable and theft! It can often mean the difference for some of feeding their families or themselves and paying off a bill they fell behind on.
