

Submitter: Dean Gisvold
On Behalf Of: NA
Committee: House Committee On Rules
Measure: HB3414

Dear House Committee

I oppose HB 3414 and the amendments under consideration because the bill and the amendments jeopardize historic protections and design regulations, already in place and working well, undermine local review processes adopted years ago, and ignores the fact that thousands of homeowners/residents have complied with such protection and regulations in good faith and wanting to do the right thing. Although you want more affordable housing, you will not get it with this bill or its amendments. This legislation is a slap in the face to those of us who have worked long and hard to protect our historic resources. Please vote no.
