

Submitter: Jackson Ross

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

As one of six Commissioners serving on Astoria's Historic Landmarks Commission, I am writing to oppose HB 3414 as it would, if passed, eliminate our review of new construction projects in neighborhoods containing historically significant residential and/or commercial properties. Our City prides itself in protecting our historically significant landmarks and HB 3414 threatens our ability to continue this practice.
