

Submitter: Carrie Kikel
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3414

Dear House Committee on Rules,

I have seen first-hand the importance of protecting our heritage sites. Heritage is the soul of any community and its pride. The Canby area prides itself on its history and is home to many important heritage sites that we must celebrate and safeguard.

I implore you to adapt the amendments to provide the exception currently offered to natural resources also to the protection of historic and cultural resources. Historic resources are irreplaceable treasures just like a stream, the Willamette River Greenway or coastal dunes.

I oppose the current version of these amendments and ask that the historic resources covered in Goal 5 also be exempt from the scope of these amendments.

Thank you.
