

Submitter: Jaime McDermott
On Behalf Of: myself and inhabitants of our beautiful state
Committee: House Committee On Rules
Measure: HB3382

Thank you for hearing testimony today. I heartily oppose HB 3382. The environment in the state of Oregon is one of the many reasons I have always loved calling it home. I've been to many places in the US, and abroad; and Oregon will always be home to me. This bill would endanger my home for the sake of expediency and profit, both of which are transitory and unimportant in the long term. It would endanger the foundations of the lives of many people and creatures that live here. It would not be worth the cost to reap the slim benefits potentially provided by this option. Please join me in opposing any form of HB 3382.
