

Submitter: Lori Church
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3382

Hello, I live in the beautiful town of North Bend, Oregon. I strongly oppose the movement to bypass these environmental regulations, which have been put in place to protect environments and communities like mine. My home, my community, and this unique ecosystem deserve the same care and respect as any other, and as a beautiful natural resource it absolutely needs to be protected.
