

Submitter: Aaron Zahler
On Behalf Of: 1000 Friends of Oregon
Committee: House Committee On Rules
Measure: HB3414

Let's not let Oregon become another sprawling, congested, paved over state. Maintain and strengthen our land use laws! The only people who will benefit from weakening them are those few folks who are least affected by the change. Those of us who prefer orderly cities and having nature close at hand are the ones who will suffer.
