

Submitter: Andrea DAmico  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB3414

Please vote against amending house bill 3414 -17

Adding more property to the UGB won't help the housing shortage, There is plenty of land still with in the UGB for example Damascus, along Roy Rogers and Scholls Ferry. And who is to say that the houses that would be built will be unaffordable housing? Before adding property to the UGB studies should be done to make sure there are adequate schools, employment..

Just adding more property will make matters worse for utility -- sewer water internet.

Please don't let home builders run our state we didn't vote for them

Please vote no

Andrea
