

Submitter: Margo Miller
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3414

The dash-17 amendment allows local governments to once again avoid rezoning land inside UGBs – the politically more difficult, but necessary, action – to allow more housing and to remove unnecessary local barriers to development. With 70 percent of all housing and all residential lands zoned for detached single-family housing – the most expensive and land-consuming type of housing – we can and must build better inside our UGBs, by allowing even more housing types and more affordable housing.

The strict urban growth boundaries are part of what makes Oregon so incredible.
Build UP not OUT.

Check out Strong Towns organization for more info. It helped inform me on issues like this.
