

Submitter: Dawn Miller
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3414

Honored House Committee members,
I am opposed to HB 3414. Increasing land outside the existing boundaries will invite housing built for those who can afford more land and can afford to travel to acquire the services they need - or to get to work or school. Extending the boundaries for high end housing decreases the land that is used for farming and recreation. Making use of vacant malls and stores....and addressing the homeless' need for those same services is where our focus should be
