Voters need to be asked to vote, and government needs to support the wishes of the people. Not the other way around. Oregon is already wildly expensive for those of us who live here. It takes at minimum a two working family income to even survive. We saved and sacrificed, working very hard to buy property in a town where our kids would have a good experience and be seen. Kindergarten will have 28 kids next year. We don't need more housing. We need to build up the community we have and repair the infrastructure that continues to make the massive expense of living in Oregon worth the hardships. There are already undeveloped areas for urban sprawl and this is not the way to go about requesting a change. Do not circumvent the will of the people.
