

Submitter: John Allcott  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB3414

Dear Representatives,

I oppose HB 3414. A one off expansion of Urban Growth Boundaries will enhance sprawl and increase tax burdens to cover the infrastructure costs of roads and water.

There is buildable land within urban growth boundaries now. Cities have taken a strong, consistent course in following our land use laws and following Oregon Planning Goal 14.

Lets not take a new path in a wrong direction Build up, not out for compact growth and building climate change resilience.

John Allcott
