

Submitter: Ann Abernathy
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3414

To the Members of the House Rules Committee

Please honor your promise to be good stewards of Oregon lands and oppose HB3414. Oregon proudly shows the rest of the country how to do things right and I think this is the wrong direction. With limited farmland, increasing wildfires and our forests at risk from climate change, it seems irresponsible to move beyond our growth boundaries. We should encourage reuse of developed land. Thank you for your service.
