

June 8, 2023

Oregon State Legislator,

Please pass HB 3414-17. The bill will allow thousands of new units to be built statewide at price ranges affordable for Oregon families. It will also help stimulate economic development in small rural communities. This bill creates a voluntary process to allow cities to expand their UGB if urban reserve land can meet certain conditions and a significant percentage is guaranteed to support construction of middle-income, workforce, and rental units.

Sincerely,

Eric Peterson
