Measure: HB3414

Oregon needs to protect its natural resources, beauty, and livability. Oregon has a standard for growing up and not out. Now a push to fast track out does not seem like an affordable housing solution. Nor does it respect land stewardship. We need to have planned well thought out growth, developers should not be dictating where and when.

Infactracure seems to have done to the wayside. Unless you are in a city with excellent public transportation we need to incorporate how we handle cars, parking and traffic.

More land to develop does not necessarily control pricing. Supply and demand...
