

Submitter: Jane Stackhouse

On Behalf  
Of:

Committee: Joint Committee On Ways and Means Subcommittee On Natural  
Resources

Measure: HB3409

I am in support of HB 3409 to fund essential climate programs that will benefit rural counties, farmers, and all oregonians by sequestering and storing carbon. The other included bill will decrease emissions. We must take this wholistic approach to be successful in decreasing the overall levels of greenhouse gases in the atmosphere.

Please pass and HB 3409 to fund essential climate programs.
