

Submitter: Robert Hart

On Behalf  
Of:

Committee: Joint Committee On Ways and Means Subcommittee On Capital  
Construction

Measure: SB80

The proposal for SB 80 to create a "Hazards Map" is in effect assigning a different label to the "Risk Map" that was required as a part of SB 762. With the mandatory defensible space requirements and inspections of private property by the Fire Marshal that will not end, there will be the same response from the public that this is government over reach. Everyone is concerned about fire but this bill does not fix the objectionable parts of the original Wildfire Bill. I oppose this legislation.
