

Submitter: Blake Goud
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB3014

Hi,

I am the parent of a student at Cesar Chavez K-8, a Title I school in North Portland. I travelled down to Salem with other parents, educators and advocates who have volunteered their time to help families have more transportation options to get to school. I want to ask members of the Senate Committee on Rules to please make sure this bill gets a vote in the Senate this session. This is an important bill to provide additional flexibility to provide safe, healthy, climate friendly and resilient transportation options that respond to families' transportation needs. Additional background about why I support HB3014 can be found in my earlier testimony, but I hope you will vote the bill out of Committee today.

Sincerely,
Blake Goud
Cesar Chavez K-8 Parent
