

Submitter: Karen Carlisle
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB2004

Dear friends,

Thank you for the hard work you do, and for prioritizing HB 2004 as one of the bills to get onto the floor for a vote. I believe there are two major reasons to pass this bill and adopt this ranked choice process. The two-party system and the primary system are just systems for wasting time, money, and energy that could be better spent, and they contribute to the vitriol in this state and country. Second, it is more democratic because it will cause wider representation, and I think it will cause many more people to choose to vote in the election because they will believe what they care about is being honored.

Please let this bill onto the floor for a whole house vote.

Thank you.

Karen Carlisle
