Measure: HB2004

As a concerned resident, I wholeheartedly support Ranked Choice Voting (RCV) to address our state's deep political divisions and the decline of Portland. RCV offers a solution by fostering inclusive representation and discouraging negative campaigning. Our city's decline demands immediate action. Let's embrace RCV, transcending partisan boundaries, to revitalize Portland. Together, we can restore unity, promote collaboration, and pave the way for a brighter future.

Things aren't too bad in Oregon City, but the politics of our fair state have created a deadlock that I want to escape from. RCV will undo this Gordian knot.
