

Submitter: k r

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

The people in Oregon deserve and have a constitutional right to have their vote count. Elected positions should only be voted upon and not be relied on ranked choice. This allows careful thought process to learn who each elected party/person is prior to them being sworn into office. There are so many issues we face in Oregon, we need to ensure we are given opportunities to elect officials that will have the peoples best interests at heart.
