Ranked Choice voting will complicate our overly complicated system even more, and it isn't fair to us regular working class citizens. Two questions, why is it being considered? And what is wrong with our system now? If it ain't broke don't fix it. Like 95% of people don't understand Ranked Choice voting and it confuses people. This would be another thing to make people move out of town. If you thought our shrinking tax base was bad (60k people moved out since 2020) just wait till this is enacted.

Thank you
