I support ranked choice voting. As we become increasingly politically polarized as a nation, the middle place or more moderate political center seems impossible to represent. Independent candidates who typically represent that more balanced ideology are doomed to fail out of fear voting for them will simply tilt the scales toward a GOP or Dem candidate. Ranked choice voting would allow more choice in voting without fear of tipping an election to an undesirable candidate. There has never been a better time in our country or our beautiful state to try something different to balance the scales.
