

Submitter: Elizabeth Ruckwardt

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

Vote NO on ranked choice voting:

-it's too costly,

-confusing for those in leadership positions (Mapps quoted as not understanding RCV)

-takes away representation from voters- does not equal 1 vote per citizen therefore undemocratic

-city/county/state has major problems that already. Annie be handled by officials - ie. drugs and mental health, corrupt ex-Secretary of State now under federal investigation, homeless complex funneling money into government that funnels money back into corrupt homeless cartel of nonprofits

Keep it simple- vote No on ranked choice voting
