

Submitter: Donna Bleiler
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB2004

I STRONGLY OPPOSE HB 2004 AS AMENDED

Besides ruining our party system, a way to discredit voters and restricted their rights to reports, you have now added an indication that you have no idea how feasible this voting method is. This should be a study and reviewed by the public before any such method is considered in a bill to be adopted. It only shows the poor work the legislature is resorting to these days. This bill should never have an implementation date and should be evaluated first.
