

Submitter: annie capestany

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

I worked hard to get rank choice voting passed in Portland and am very excited about the possibility in the state. Please pass this measure so that we can have more representative government. Rank choice voting means people don't have to spend so much money on campaigns. It means people will be more willing to take "risks" and vote for the supposedly "marginal" candidates that really represent them. It will create more diversity, whether geographic diversity, age diversity, income diversity, gender and sexuality diversity, educational diversity...maybe even food-preference diversity! (as a vegetarian, i kinda like that possibility.)

Rank choice voting will make our democracy better and stronger and will encourage more people to vote. Please vote yes on Rank Choice Voting!
