Measure: SB579

I oppose SB 579. A person who has been lawfully convicted of a felony has forfeited their right to vote. In many states felons are not able to vote even after being released from prison. It is unreasonable to allow a convicted felon in prison the right to vote; perhaps after they have served their time and proven themselves, they can earn back the right to vote, but not while actively serving time. I strongly oppose SB 579 .
