Dear Next up,

NO, I have not voted before, I guess I figured my vote wouldn't count for much.

I do not know how to find out about issues and/or candidates that are on a ballot during an election.

* I have received a voter registration card in the past and know how to do that.

* I do support this legislation

* It would mean a lot to me to be able to vote in prison because our votes are suppressed and that is a very dehumanizing position to find oneself in.

* Voting would matter to me because I could support movements and issues that are important to me and others.

* To be able to vote right now would mean I could support the abolition of mandatory minimums and other harmful practices, (over)

If I could tell the legislature,
something, I'd tell them my voice and/or
input should matter to them. After all
I am the little people.

Yes, you can share my comments
to them.

Thank You!
