

Submitter: Melissa La Guardia

On Behalf  
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and  
Water

Measure: HB2616

Sales of raw milk through delivery service, farmers markets and buying clubs would greatly increase the quality, availability and profitability of our milk production. It is hard to schedule customers to drive out to the farm, and they often cancel seeing as the drive is long, so being able to take the milk to a collective market once a week location or delivery straight to their house to ensure quality control would make our small operation more successful. We are in full support for the passing HB 2616.
