

Submitter: Cari Brandberg

On Behalf Of: Chelsea Rose Seafood and Yaquina Lab

Committee: House Committee On Economic Development and Small Business

Measure: HB2909

OCVA has been a great support to our small rural direct marketing seafood business through helping us set up a marketing commercial for our Oregon Halibut fishery including highlighting the sustainable resource and management, helping to provide and subsidize freezer storage capacity for our locally caught seafood until we can process locally, and to help us access and subsidize seafood processing licenses and education on proper handling and storage on our small scale level.

Thank you for your consideration of bill HB2909 and investing in the Oregon seafood industry!

Sincerely,  
Cari Brandberg  
Chelsea Rose Seafood
