

Submitter: Caroline Borduin

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB507

I'm writing in support of SB507. I'm a long-time customer and a supporter of local farms. Over the years, I've been a CSA member and a frequent farmer's market customer. I'm now disabled and in a wheelchair. Attending and navigating farmer's markets has become increasingly difficult for me. SB507 will make it possible for me to enjoy local farm goods through online sales and delivery. A bonus is that I would be able to purchase freeze-dried and canned products too. Nothing is nicer than strolling through a farmer's market on a fresh summer morning, but noshing on a bag of dried Oregon blueberries comes in a close second. Please support SB507 and extend the reach of small farms. Thanks for reading.
