

Submitter: Jarred Lundstrom  
On Behalf Of: Camp Colton  
Committee: Senate Committee On Natural Resources  
Measure: SB507

As a landowner and consumer I would like to add Bigleaf Maple syrup to the list of products on the Farm Direct bill.

Syrup made from the sap of Bigleaf Maple is an emerging product in Oregon that has the potential to make a lasting positive economic impact on small farmers in the state and the region.

I own acreage in the Colton Oregon area that is covered in Bigleaf Maple trees. I would like to establish protection of my rights to harvest the naturally occurring sap of the living tree and sell or trade the syrup within my community. Please add Bigleaf Maple syrup to the list of products on the Farm Direct bill.

Please take this opportunity to support an amazing new crop in Oregon!

Thank you for your consideration,
