

Submitter: Robert Egner

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB498

Please pass SB 498. Our natural resource industries need help to sustain not only their farms, ranches etc for their own livelihood but also need help sustaining the supply of their resources to the people of Oregon and in many cases the US.

We must do anything possible to help them and ensure our resources are available to sustain our people. Keep prices down for low income families etc.

I request all legislators put their vote behind this bill and help keep our industries alive, keep generational land in use and offer a lifeline to our supplies that are already struggling.

Thank you for your support
