

**I SUPPORT [SB 643].**

Oregon makes and sells wines, beer, distilled spirits, and ciders.

Now it is time to make and sell food-Yeehaw! "Bring on dem Baby-back ribs baby!"

Removing the statutory shackles and chains from the cottage food industry will: stimulate the economy of "Home" food products, provide much needed good food at reasonable prices, provide job training with enhanced marketable skills, get more people involve in local agricultural production of food crops and make "Farmer's Markets" more popular than ever.

Even though I fully support **[SB 643]**, such a piece of legislation should never have been needed. Oregonians have been eating all sorts of "Homemade" foods since I do not know when...at least back to the cavemen...err... cave people days.

Good Job with **[SB 643]**!

David S. Wall

Mr. Oregon Concur...My "smoked salmon" and dried fruit compote is pretty darn tasty...I guaron...tee.
