Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2616

Raw milk has beneficial health impacts that directly affect members of my family. Although I am vegan, I advocate for making it easier for my other family members to have the raw (cows') milk that keeps their gut probiotic health at optimum levels, to maximize their mental and emotional states. Their health (positive or negative) also affects the whole family.

Thank you.
