Committee: Senate Committee On Judiciary

Measure: SB579

This is damaging to the very core of our expirement. With our current lack of a moral compass that is previlent in todays society this makes little scense. Unless what you want is a larger ever inccessing (Powerful) Government. It's bad enough that half of the voting base drives it's income from the Government in form or another. Now you would have a captive and pressured voter block ? Think on this.
