

Submitter: Andrew Martin

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

I strongly encourage you to support this bill. Electric bikes support state-wide and local land use, sustainability, safety, and livability goals. The price of these vehicles is a major barrier to their adoption. Oregon currently has rebates for electric cars, and given that electric bicycles move us towards our goals much faster it makes sense to have similar rebates for electric bikes. This rebate will also support Oregon's bicycle industry economically.

Please support this bill.
