

I SUPPORT [SB 616].

The wineries had a similar hassle with shipping cases of wine.

Why is there a "shipper's permit" to begin with?

One would think...if just for a minute in time...why is the State of Oregon hassling wine, beer and now cider industries?

Amend [SB 616] to support, "*unlimited shipping for wine, beer and especially cider*" without the objectionable "shipper's permit."
