

Submitter: Allen Phillips

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR5

Sirs:

70 years ago I shot my first Green Head Mallard with a bolt action 410 ga shot gun. That same year I missed three shots at a crossing 3 point mule deer; my dad accused me of having "buck fever". He might have been right. I've had a hunting licence every year since. Now, with the days of hiking all day well behind me, I reflect on my hunting life and wonder if others will be able to enjoy 70 years of the great outdoors in similar fashion. HJR 5 appears to assure that that opportunity would be available. I stand in favor of HJR 5.

Sincerely,  
Allen L. Phillips.  
Prineville. Or
