

Submitter: HAROLD DILLON

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2095

I walk, ride a bike and drive a car in Eugene. I see many cars driving too fast and exceeding the speed limit. I do not often see a Eugene Police vehicle in my travels. It makes so much sense to use the technology available to create a strong incentive for drivers to obey the speed limits. I can easily imagine that the police officers are very busy doing all kinds of tasks. I am sure that there are rarely enough officers on a shift to send one out to only monitor traffic speeds. Thank you
