

Submitter: Dale Sauer
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR5

Having been a resident of Oregon for 76 years, I have fished, hunted, and gathered wild berries, mushrooms, etc. from age 12 until now. I whole heartedly support HJR 5, because it embodies some of the freedoms I have enjoyed all my life and these are freedoms that should be codified in law. When our state constitution was written these rights were assumed, but in the culture of today nothing can be assumed; all has to be codified into law. Without this protection it will be argued that these rights were never intended by our forefathers, etc.

Please support this legislation as this is not a Democrat, Republican, or Independent issue; it applies equally to all Oregonians.
