

Submitter: NW Coastal Range

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB441

Oppose grant programs for the attainment of any occupation for the recruitment of employees for private practice/partnership/corporate. The Dental Associations should work with their members to start a recruitment campaign, not put it upon citizen taxpayers. Citizens pay taxes to make Oregon livable with the least interference from government as possible. Grant or fund every occupation under the sun, is nothing more than a transfer of wealth from citizens to corporations to fund projects that most corporations could fund themselves. Altruistic probably to most Oregon people that are left only with a tax bill and not much else, except increased fees and fines, and limiting ability of people to be free by upping the stakes of criminality. For what; Legislature wants unhappy residents, or the population to flee the restraints of Oregon's outrageous policies and laws? Or is the Legislative body so disconnected from everyday life of citizens, just say, "oh that sounds good, let's do that, while effecting millions of people?"
