

Submitter: NW Coastal Range

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB1

What does filing tax statements have to do with ethnicity/race. This is an intrusive bean counting expense that should not be studied by a committee or the Revenue Department, which is based on reporting, analyzing the report, and crediting or debiting the Revenue tax account. It's none of the tax department business if a person is purple with pink poke-dots. SB 1 is a ludicrous invasion of a taxpayers privacy. Oregon Revenue Department already asks far too many questions that citizens shouldn't answer, maybe all Oregonians should stop providing information that has nothing to do with credits for disability/age or paying/collecting a refund owed.
