

Submitter: Steve Wilson
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR5

Hello Committee members,

I am in favor of the right to hunt, fish and harvest wildlife in Oregon. As Oregonians we have a long history of these activities. As an active outdoorsman I prefer to focus my hunting on agricultural pest species. As to fishing I target non-native species such as Eastern Brook trout which in most areas of Oregon have no limit due to their propensity to out compete native populations of Red Band trout and others. Each of us have our preferred activities that we enjoy. Because we do interact with the outdoors we also have concerns for quality and quantity of habitat available to our wildlife. I believe this bill will help to provide long term support to preserve our wildlife, their habitat and wild lands

Thank you,
Steve Wilson
