

Submitter: Matt Hurley

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR5

As and avid Outdoorsman and hunter I am in complete support of bill HJR5 . The rights of all hunters in Oregon need to be protected from the Anti- Hunt community , if you do not like hunting then don't hunt . For those of us that go out into our public lands with the hope of harvesting an animal whether it be a big game animal or upland birds. the idea is to provide food in the most organic means for our family and friends. The right to hunt has existed since the beginning of time and should continue forever as long as we have the women and men that want to live by harvesting their own food .

PROTECT OUR RIGHTS NOW AND FOREVER .

Matt Hurley
