

Submitter: Teri Gainer
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR5

Dear House Committee,

My husband has been an Oregon resident his whole 64 years and I have been an Oregon resident about 40 years. Most of those years we have fished and hunted. Either as young children with our families or as adults with our families. These opportunities provided food for sustenance as well as fun and fond memories. It also created opportunities to explore and help preserve this beautiful state that we live in. Never in our wildest imaginations did we ever believe that HJR 5 would be necessary to fight against IP 3. It would be a travesty to allow extremists to destroy such a beautiful and wonderful lifestyle that many love in this state. IF IP 3 were to pass, it would pretty much be a guarantee that we would leave the state of Oregon. Thank you for your time and consideration.
