

Submitter: Fred Baldwin

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR5

Good Morning.

I have lived in Oregon for over 50 years & have hunted deer, antelope & elk nearly every year & fish whenever. It's been a family event with my wife, Debbie, & our 4 kids.

Now some of my grandkids hunt and fish with us.. In 1994 I had Bypass Surgery & I struggle with controlling my cholesterol & Heart Disease. My Doctors limit the amount of red meats I can consume, however, wild game is quite low in cholesterol, so, I have an added reason for hunting. I fully support HJR 5.

Thank You.
